

NAVIGATION PLAN: PARKS AND REC

My site will consist of pictures of the characters of Parks and Rec where the viewer can click on the character's picture or the character's name on the link bar to go to their page.

After you click on a picture or a name, a page will come up with a picture of that character along with some info about them.

To get back to the main site, there will be a link at the top of page that also is the logo.
